

PROGRAMS

Healthy Smiles- Utilizing Telerdentistry technology, staff provide cleanings, x-rays, and sealants at the elementary school. Records are reviewed by a dentist at our Paso Robles Office. Children miss less school and parents stay at work.

Every Tooth Counts- Providing more frequent fluoride applications, Silver Diamine Fluoride, and general anesthesia. These services are not reimbursed by Medi-Cal Dental.

Preventive Care Matters -Patients in their adolescent years often benefit from additional preventive services. These additional services are not reimbursed by Medi-Cal Dental.

TOLOSA

Children's Dental Center

Mission: Improving Children's Oral Health in San Luis Obispo County

TolosachildrengsDental.org

THE NEED

Dental disease is preventable yet remains the most chronic infectious disease among children in the US, more than asthma, diabetes and obesity.

Children in pain from untreated tooth decay may struggle at school, have difficulty eating, sleeping, and suffer from poor self-esteem.

Tolosa Children's Dental Center treats thousands of local children each year, the need for pediatric dental care continues to rise.

OUR WORK

Tolosa Children's Dental Center is the only Nonprofit Pediatric Dental Center in SLO County. We strive to ensure that every child receives quality, continuously accessible, and family-centered dental care.

We offer comprehensive pediatric dental services to children of all ages and abilities including preventive care, oral health education, restorative, emergency treatment and extensive care requiring the use of general anesthesia.

Our employees include general and pediatric dental specialists, hygienists, registered dental assistants and support staff.

Grants, fundraising and your support allow us to continue and expand our pediatric dental services to more local children.

We need your help

Over 12,000 underserved local children still need a dental home.

The gift of a smile is for a lifetime.
