Mission: Improving Children's Oral Health in San Luis Obispo County

TolosaChildrensDental.org

THE NEED

Dental disease is preventable yet remains the most chronic infectious disease among children in the US, more than asthma, diabetes and obesity.

Children in pain from untreated tooth decay may struggle at school, have difficulty eating, sleeping, and suffer from poor self-esteem.

Tolosa Children's Dental Center treats thousands of local children each year, the need for pediatric dental care continues to rise.

OUR WORK

Tolosa Children's Dental Center is the only Nonprofit Pediatric Dental Center in SLO County. We strive to ensure that every child receives quality, continuously accessible, and family-centered dental care.

We offer comprehensive pediatric dental services to children of all ages and abilities including preventive care, oral health education, restorative, and emergency treatment.

Our employees include general and pediatric dental specialists, hygienists, registered dental assistants and support staff.

Grants, fundraising and your support allow us to continue and expand our pediatric dental services to more local children.
